WELCOME TO OUR

20 PRODUCT 24 CATALOGUE

Welcome to *KINETIC*, where design and quality meet affordability in today's world of archery. We are specialized in crafting both recurve and barebow risers and limbs, designed to appeal to a wide range of archers, from beginners to advanced enthusiasts. Our mission is to make high-quality archery equipment accessible to everyone, ensuring that regardless of budget, you have the opportunity to pursue your passion.

Our products stand out for their exceptional designs that don't just look good but perform excellently. We believe in offering value for money, blending quality with affordability. Each piece is a statement for our commitment to reliability and precision, reflecting the spirit of Olympic-level archery while being attainable and suitable for youth and adults alike.

At *KINETIC*, we don't just create archery equipment; we craft experiences. Whether you're just starting your archery journey or looking to upgrade your gear, our range promises to enhance your performance while ensuring you get the best value for your investment. Join us in celebrating the sport of archery – where every archer, regardless of skill level, can find their perfect match.

Welcome to a world of *Design Driven Value*.
Welcome to *KINETIC*.

6061-T651
aluminum

- CNC - machined 6061-T651 aluminum for more rigidity
- Geometry/weight ratio optimized for minimum vibrations and improved stability & balance
- Pivot block and limb alignment system with zero tolerance
- Ergonomic and non-slip double injection molded grip
- Clicker extension secured with double screws
- Available in 13 high-end anodized polished colors, 1 titanium plated, 1 painted color & 7 anodized duotone combos

ANODIZED GOLD

ILF RISER
SOVREN 27

The Sovren 27" is a perfect fit for archers who have a longer draw length or seek a stable bow with faster arrow flight. A 27" riser at an exceptional price.

+ TECHNICAL SPECIFICATIONS

- CNC - machined 6061-T651 aluminum for more rigidity
- ILF pockets with limb alignment system
- Plated filler bolts
- Including STD wooden grip
- Bow specific barebow weights available
- Available in 13 high-end polished anodized colors & 1 painted color

PAINTED CHAMELEON

ILF RISER
SOVREN 25

The Sovren 25" is one of the top performing risers in our product line. A CNC machined riser that offers the performance of a high-end riser at a very interesting price point.

+ TECHNICAL SPECIFICATIONS

- CNC - machined 6061-T651 aluminum for more rigidity
- ILF pockets with limb alignment system
- Plated filler bolts
- Including STD wooden grip
- Bow specific barebow weights available
- Available in 13 high-end polished anodized colors, 7 anodized duotone combos & 1 painted color

ANODIZED DUOTONE BLACK / RED

ILF RISER

SOVREN 23

FULL CNC

The Sovren 23" is the perfect match for ambitious archers with shorter draw length aiming for excellence.

RECURVE LIMBS

ILF LIMBS
ENGAGE

FIBER
WOOD

The Engage has a slim shape, durable, high-performance intermediate limb design that creates more speed due to its advanced limb tips.

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

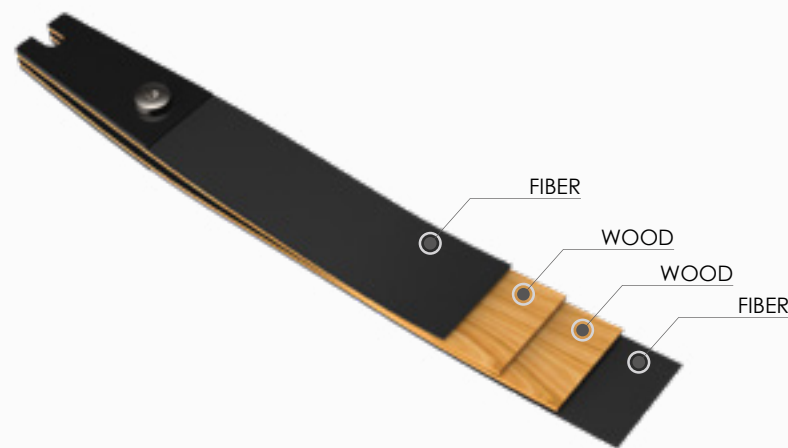

12 - 44lbs in
2lbs increments

Fiber / Wood

- Smooth, light weight and fast limb.
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 12lbs till 44lbs in 2lbs increments
- Material : Laminated fiber / Double-layered maple wood core

ILF LIMBS
INVELTA

FIBER
BAMBOO

The Invelta is a fiberglass recurve limb with a bamboo core. Bamboo makes these limbs more stable due to the lateral rigidity. Great value for money!

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

18 - 40lbs in
2lbs increments

Fiber / Bamboo

- Integrated reinforced limb tips
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 18lbs till 40lbs in 2lbs increments
- Material : Fiber / Bamboo core
- Made in Korea

ILF LIMBS

NEW AVANTAGE

FIBER
FOAM

The Avantage is an economically priced foam core limb that is laminated with black foam core and high-grade glass fiber. A great intermediate level choice that is smooth and forgiving.

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

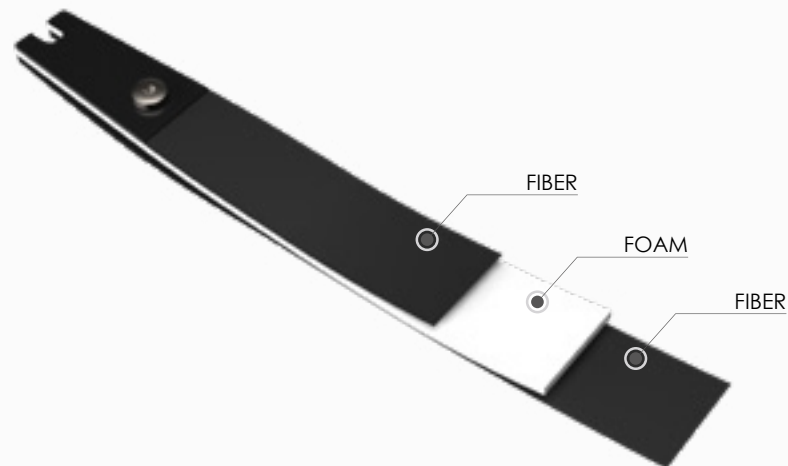

18 - 40lbs in
2lbs increments

Fiber / Foam

- Smooth drawing limbs
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 18lbs till 40lbs in 2lbs increments
- Material : Fiber / Black foam core
- Made in Korea

ILF LIMBS

HONORICFOAM

CARBON
FOAM

The Honoric limbs are made to generate more speed and higher precision. They're constructed with a lot of strength and excellent shock absorption.

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

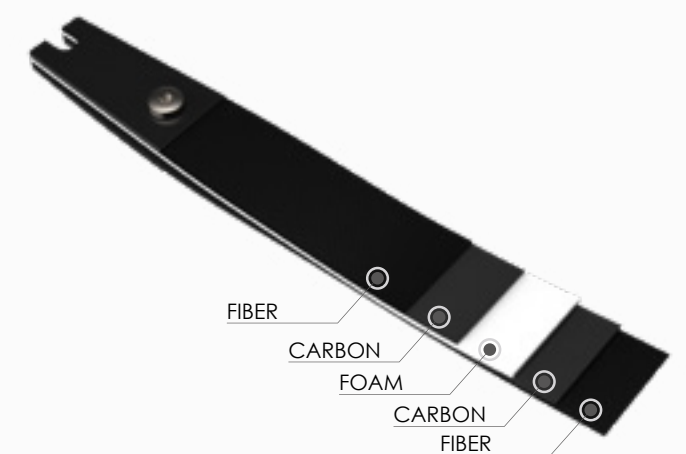

18 - 40lbs in
2lbs increments

Carbon / Foam

- Carbon layer for improved lateral stiffness and stability
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 18lbs till 40lbs in 2lbs increments
- Material : UD Carbon / Black foam core
- Made in Korea

ILF LIMBS

MENTUM

CARBON BAMBOO

The Kinetic Menthum is a great option for those who value higher speed. This limb achieves it through the combination of a bamboo core with UD carbon, all at an interesting price point.

+ TECHNICAL SPECIFICATIONS

short, medium, long

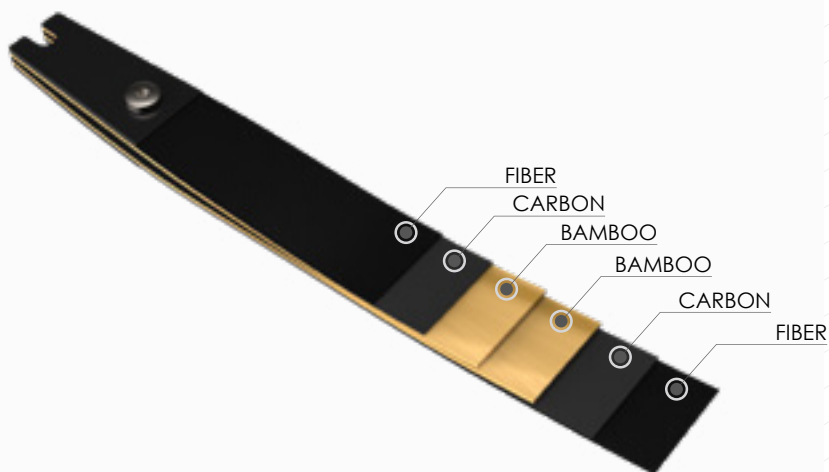

20 - 40lbs in 2lbs increments

Carbon / Bamboo

- Matte black finished limbs with striking yellow graphics
- More speed enabled due to the use of a bamboo core
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 20lbs till 40lbs in 2lbs increments
- Material : Carbon / Bamboo core
- Made in Korea

ILF LIMBS

NEWVAULTAGE

3K CARBON FOAM

Advanced design, smooth draw, slim shape, durable, high performance, high speed and high precision are all combined in the New Vaultage limb. This limb has it all!

+ TECHNICAL SPECIFICATIONS

short, medium, long

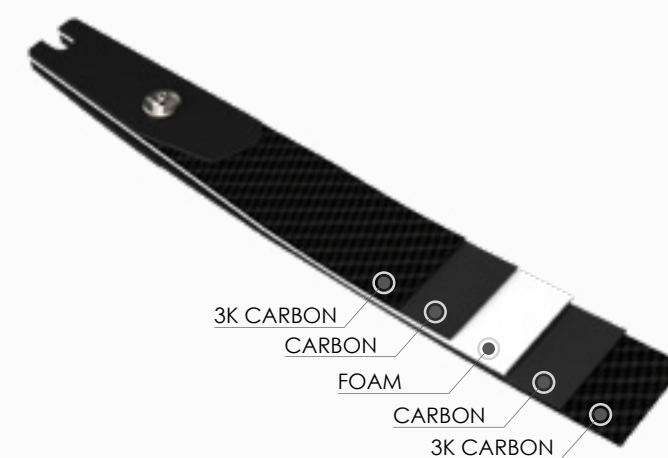

18 - 44lbs in 2lbs increments

3K Carbon / Foam

- Smooth, light weight and fast limb
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 18lbs till 44lbs in 2lbs increments
- Material : High-strength cross carbon / Layered foam core

ILF LIMBS
FINITY

Constructed from high-strength cross carbon around a layered superior bamboo core. The result is a stable, lightweight and fast limb. Advanced design, slim shape, durable, high performance, high speed and high precision. The latest advanced design of the limb tips makes the initial release speed faster.

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

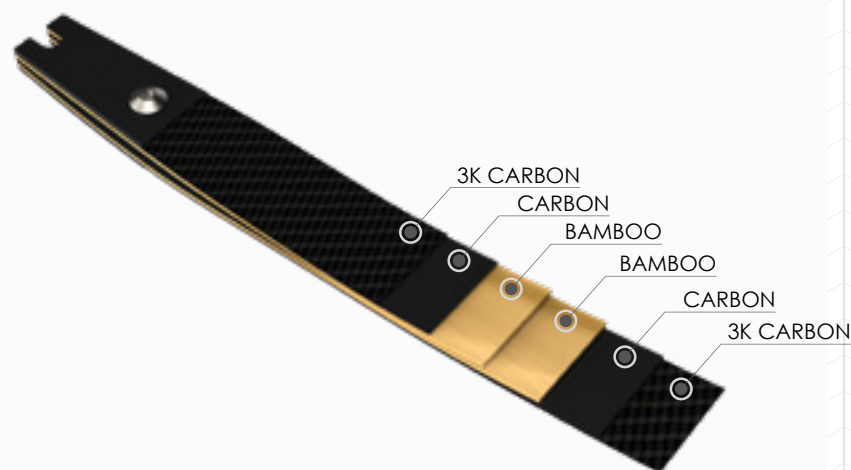

18 - 44lbs in
2lbs increments

3K Carbon /
Bamboo

- Slim shape & new limb tip design
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 18lbs till 44lbs in 2lbs increments
- Material : High-strength cross carbon / Layered superior bamboo core

ILF LIMBS
PALMARIS

Nano-carbon technology with foam core layers offers extreme stability and less vibration. The superior limb geometry and high grade 3K carbon creates increased energy and exceptional speed. These limbs have integrated the limb tip completely which results in a slim profile and a lighter mass weight.

+ TECHNICAL SPECIFICATIONS

short,
medium,
long

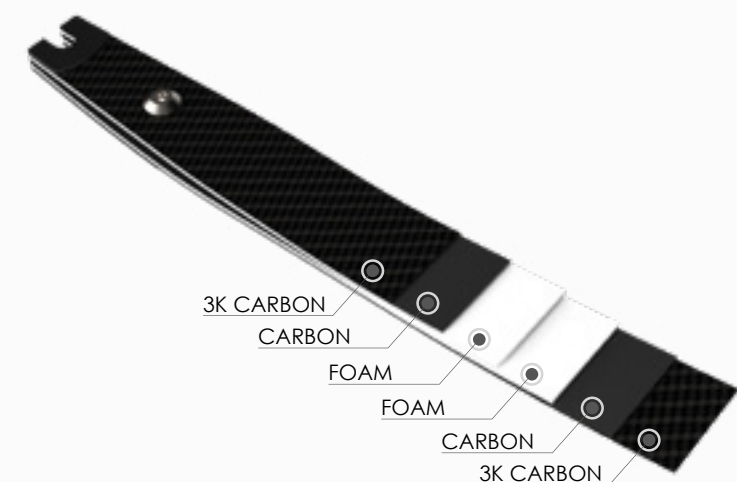

20 - 44lbs in
2lbs increments

3K Carbon /
Foam

- Smooth drawing makes it feel easy to shoot
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 20lbs till 44lbs in 2lbs increments
- Material : 3K Nano-Carbon / Foam core

ILF LIMBS
FURY

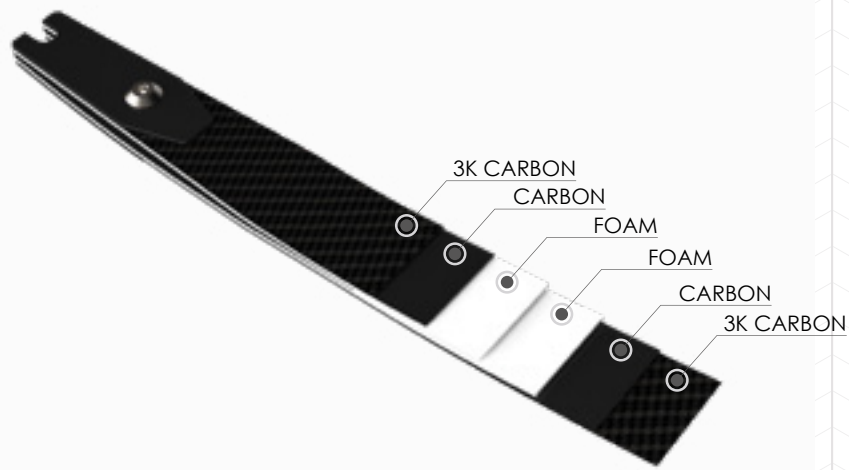

This latest limb design is the best choice for archers seeking the ultimate limb for speed, smoothness and stability. The Fury limb will empower your arrow grouping and enhance your shooting pleasure.

+ TECHNICAL SPECIFICATIONS

- Speed without compromise
- ILF fitting, fits any type of ILF risers
- Available in short, medium and long
- 24lbs till 44lbs in 2lbs increments
- Material : 3K Carbon / Foam core
